Laryngoscopic Examination

This horse has undergone a post sale laryngoscopic examination for the absence of conditions as per clause 12.2 of the Conditions of Sales printed in the current official Inglis catalogue:

- I. Laryngeal neuropathy (Grossly deficient abductor function of one or both arytenoid cartilages - Grade 4 & 5, Lane - Bain Fallon Proceedings 1993);
- II. Rostral displacement of the palatopharyngeal arch;
- III. Epiglottic entrapment;
- IV. Persistent dorsal displacement of the soft palate;
- V. Arytenoid chondritis or arytenoid chondropathy;
- VI. Sub epiglottic cyst(s);
- VII. Cleft palate;
- VIII. Any airway condition or lesion causing significant airway obstruction resulting in exercise intolerance.

These examination findings are limited to the above procedure and are accurate as at the time of examination. Progression or development of upper airway conditions may occur subsequent to the date of the above examination. This Certificate of Examination is for the sole use of the purchaser as listed in the official William Inglis and Son Ltd sale results sheets.
