At the request of Mr Frank Galluzzo of Supreme Syndications, I have examined the above filly at Freemans Reach on the 9th September 2019.

The filly was found to be in good health and condition and free from signs of disease. No abnormalities were detected on auscultation of the heart and lungs, and cardinal signs were within normal limits.

Body and leg conformation were found to be within normal limits. There was no evidence of lameness when led at the walk.

Within the limits of the examination there were no abnormalities present that would in my opinion prevent the chances of this horse withstanding the pressures of racing. In my opinion, the filly is suitable for syndication as a racehorse.
